<p>While the proposed district has a projected current volume which is low, the area is projected to undergo significant growth over the next decade. According to data provided by the Delaware County Planning Department, the population of this district will grow at a rate which is four times higher than the County average over the next decade. Additionally, job growth in the district is expected to be almost three times the County average for the next ten years. There are numerous housing and commercial developments planned in the district, which will cause the case volume to expand and will likely bring the workload of the district court above the county average by the end of the decade.</p>
