COUNTY OF DELAWARE

Subcontractor Responsibility Certification

Chapter 29 of the Delaware County Code requires that as a condition of performing work on certain public works contracts, a firm seeking award of a contract shall submit Subcontractor Responsibility Certification for all identified subcontractors. Delaware County has determined that the contract subject to this solicitation is covered by Chapter 29, and that firms responding to this solicitation must submit this form for all subcontractors.

In order for this Subcontractor Responsibility Certification to be considered validly submitted, it must be properly signed by the subcontractor or an officer or employee of the subcontractor authorized to make it. Subcontractor Responsibility Certifications that are not properly signed will not be considered as responsive to the requirements of the Delaware County Code.

Execution of this Subcontractor Responsibility Certification shall not establish a presumption of subcontractor responsibility, and Delaware County may require any additional information it deems necessary to evaluate a subcontractor's status as a responsible contractor, including information regarding the firm's technical qualifications, financial capacity or other resources and performance capabilities.

If Delaware County determines that a Subcontractor Responsibility Certification contains false or misleading information that was provided knowingly or with reckless disregard for the truth or omits material information knowingly or with reckless disregard of the truth, the firm for which the certification was submitted shall be disqualified from the project and shall be prohibited from performing work for Delaware County for a period of three years. Delaware County may withhold payment of any monies due to the firm as damages and impose other applicable penalties and sanctions, including contract termination, as permitted by law or contract.

I hereby represent, warrant and agree on behalf of the firm indicated below that:
