

LEGAL NOTICE

NOTICE IS HEREBY GIVEN that the Delaware County Board of Elections will commence voting equipment software hash testing, Tuesday, September 12, 2023 at 10:00 a.m. at the Voting Machine Warehouse, 403 East 24th Street, Chester, PA 19013 and will continue day to day, if needed, until completed. Any person properly credentialed as a certified civic group, watcher organization or authorized representative may be present during the testing. Hash-testing is a best practice for the election authority to verify that the balloting equipment is utilizing software as it was certified by the state and federal governments through testing by an independent laboratory and that the software has had no coding changes. Hash verification demonstrates the software has not been modified. Delaware County performs the hash testing through random selection and testing of 5 percent of the precinct equipment before and after the election.

DELAWARE COUNTY BOARD OF ELECTIONS

Ashley Lunkenheimer
John P. McBlain
Scott J. Alberts

James P. Allen
Director of Elections
