

**Medical Assistance Transportation Program Hybrid or Vendor Model
Request for Proposal- Questions & Responses
Adult and Family Services**

I do not see a scope of work detailing any project specifications. Will this be provided? **All related relevant details and requirements are outlined in Request for Proposal #HS-000022 AFS Medical Assistance Transportation Program.**

Are you able to provide the MATP Quarterly Cost Reports for FY ending June 30, 2025 (year to date through June), and the MATP Quarterly Cost Report for FY ending June 30, 2026 (year to date through March)? Thank you. **Information to be shared with contract awardee.**

Can you please confirm that the cost proposal should include only administrative costs, to administer the MATP program in Delaware County, and not the direct transportation/purchased transportation/purchased transportation costs, which would be determined following the contract award and as part of contract discussions. Thank you. **That is correct. The transportation costs will be determined following the contract award as part of contract discussions with both the County and the Commonwealth MATP program administrators.**
